What we are Learning

In January, we learned all about animals that live in the artic and got to experience how animals stay warm in the winter through a fun science experiment. We also learned about snowmen and had fun creating all kinds of snowmen. In January we also started learning sight words and increased our alphabetic phonic awareness through games and activities.

In February we will learn about our Chinese New Years, Dental Health , Fairy Tales and end the month learning about Presidents. During fairy tale week we will have a fairytale luncheon where the children will get to dress up as fairytale characters and take part in a luncheon where we will practice etiquette and manners. We will be sending more information home in the near future .

Please remember if your child is going to be late or absent call or email the Director or the classroom by 9am.
